

## NEBOSH National Certificate in Construction

|                                    |  |  |
|------------------------------------|--|--|
| <b>Course Duration</b>             | 16 days plus private study and background reading, but including a revision day, the assessment and examination  |  |
| <b>Who will Benefit</b>            | Supervisors, Managers and CDM co-ordinators within the construction industry who are required to ensure that activities under their control are undertaken safely. It is likely to prove useful for those concerned with the management of buildings who may need to ensure that contractors are working safely. The qualification is also appropriate for supervisors and managers working in other industries such as utilities, and even broadcasting, where temporary workplaces are a feature of their activities.  |  |
